**Montreal Holocaust Museum**

## **Our position on the War in Israel**

*Montreal, Quebec, October 10th, 2023*

October 7th, 2023, marked the single deadliest day for the Jewish people since the Holocaust. The Montreal Holocaust Museum is shocked and sickened by the terror Hamas inflicted upon the people of Israel. Our hearts are broken for the families whose children, parents, and grandparents have been violently hunted, abducted, raped, and killed in cold blood.

Our Museum is an organization born out of the ashes of the Shoah by survivors concerned with a rising tide of hate and antisemitism. With their legacies in mind, we condemn these crimes committed by a terrorist group that has repeatedly called for the mass murder of Jews.

In the face of this brutality, we are all Israelis. The Museum applauds Quebec, Canada, and all democratic countries that have denounced this hateful act of terror and reiterated Israel's right to live in peace and security.
